## Software Engineer

Caloocan City, Philippines / [github.com/mrepol742](https://github.com/mrepol742) / [mrepol742@gmail.com](mailto:mrepol742@gmail.com)

I'm Freelance software engineer and full stack web developer, passionate about creating innovative and impactful web applications that make the world a better place to live. I have been self-taught since 2018 and have developed multiple skills, including DevOps, communication, database management, SEO, data analytics, Arduino, and PWA.

/\* WORK EXPERIENCE \*/

## FREELANCE

Software & Web Developer / Jun 2021 - Dec 2023

I create efficient and reliable software & websites that meet customer needs based on their system analysis and design & business model.

- developing and maintaining software/web applications using languages and tools specified in system analysis.
- transform design into high quality applications
- building reusable, stable & maintenance free components
- troubleshooting bug, issues and threats.
- completing the task on time

/\* PROJECTS \*/
